

BIBLIOGRAPHIC REFERENCES should be limited to essential literature. They should be listed at the end of the paper in alphabetical order and not numbered. For a citation from a *journal*, the author's name in capital letters and the year of publication in brackets are followed by the title of the paper, the name of the journal *in full* and underlined for italicization, the volume number and the first and last pages of the journal. For multiple publications by the same author, those by the author alone are listed first and any with two or more co-authors listed subsequently in chronological order. The names of all authors must be given up to a maximum of six and any more should be indicated by *et al.* If there is more than one paper for a given year, these should be listed *a, b, c, etc.*, after the year. For *books*, the author's name and year of publication in brackets are followed by the title of the book, underlined for italicization, place of publication, publisher's name and first and last page numbers. For *chapters in books*, the author's name and year of publication in brackets is followed by the title of the chapter, the title of the book (underlined), preceded by 'In:', the name(s) of the editor(s), the place of publication, the name of the publishers and the first and last pages of the chapter.

DEXTER DT, CARAYON, A, VIDALHET M, RUBERG M, AGID F, AGID Y *et al.* (1990) Decreased ferritin levels in brain in Parkinson's disease. *Journal of Neurochemistry*, 55, 16–20.

DUBOWITZ V (1978) *Muscle Disorders in Childhood. Major Problems in Clinical Pediatrics*, Volume 16. London: W. B. Saunders, p. 183.

MCGEER PL, ITAGAKI S, AKIYAMA H, MCGEER EG (1989) Comparison of neuronal loss in Parkinson's disease and aging. In: *Parkinsonism and Aging. Aging*, Volume 36. Edited by D. B. Calne, G. Comi, D. Crippa, R. Horowski and M. Trabucchi. New York: Raven Press, pp. 25–34.

*In the text*, numbered references are not used. The author's name and year of publication are given in brackets. If there are three or more authors, the name of the first is followed by *et al.* The punctuation, both in the Reference list and in the text, should follow the style of the journal (*see* current issue). Papers in which the reference citations do not follow this format may be returned for retyping. References to papers 'in preparation' or 'submitted' are not acceptable; if 'in press' the name of the journal or book must be given. Reference citations should not include 'personal communications' or other inaccessible information; information derived from personal communications or from unpublished work by the authors should be referred to in the text.

ILLUSTRATIONS should be clearly lettered original line drawings or glossy prints, with their number and the author's name on the back. They will not be relettered by the publisher. The journal reserves the right to reduce the size of illustrative material. Half-tone photographs, particularly for electron micrographs or CT or MR images, must be of good quality. All micrographs must carry a magnification bar (e.g., 1  $\mu$ m). Colour illustrations are accepted, but the authors will be required to contribute to the cost of the reproduction. An estimate of the cost will be provided. The number of all illustrations must be kept to a minimum. The desired position of figures and tables should be indicated in the typescript of the paper (e.g., fig. 1 near here, in brackets). Legends for figures should be listed on a separate sheet. All tables must bear a title. Footnotes may be used in the tables, but not in the text.

ABBREVIATIONS FOR SCIENTIFIC UNITS should conform to the *Système Internationale* (SI units). The statistical guidelines advocated by the International Committee of Medical Journal Editors (*Ann. Intern. Med.* 108, 266–273, 1988) should be followed.

*Attention to the details requested here will facilitate the expeditious processing of your paper.*

Authors are requested not to reprint their papers, or to authorize others to do so, without first consulting Oxford University Press (Copyright Department), Walton Street, Oxford OX2 6DP.

## TRAVEL GRANTS

The Guarantors of Brain are prepared to consider applications for part or all of the costs incurred by clinical and non-clinical neuroscientists, aged under 40 and based in the United Kingdom, wishing to visit laboratories or clinical departments at home or abroad. Awards of up to £2000 may be available.

Applications will be considered for attendance at scientific meetings which relate directly to the applicants' research interests. Only exceptionally will applications to attend larger international conferences be considered. The Guarantors are unlikely to meet all of the costs of these visits and encourage applicants to seek part of their expenses from other sources.

**Four** copies of each application must be submitted at least two months before the planned date of departure.

The following documents are required:

1. An abbreviated curriculum vitae with a list of publications.
2. An account of the purpose of the visit.
3. The names of two referees.
4. A letter of invitation from the Host Department.
5. A statement of the costs with details of related applications.
6. A list of previous awards given by the Guarantors of Brain.

The applications should be sent to Professor Richard Frackowiak, MRC Cyclotron Unit, Hammersmith Hospital, 150 Duane Road, London W12 0HS, UK. (Tel. 081 994 6945).

All successful applicants are expected to submit a short report of the visit on their return.
