

BRAIN

A JOURNAL OF NEUROLOGY

Topographic map of the hand onto the face (and stump) superimposed on the mirror box used to provide visual feedback in restoring brain function. From Ramachandran and Altschuler. The use of visual feedback, in particular mirror visual feedback, in restoring brain function pp. 1693–1710.

Scientific Commentary

Sodium channelopathy of peripheral nerve: tightening the genotype–phenotype relationship
S. Schorge and D. M. Kullmann
1690

Review Article

The use of visual feedback, in particular mirror visual feedback, in restoring brain function
V. S. Ramachandran and E. L. Altschuler
1693

Original Articles

Early- and late-onset inherited erythromelalgia: genotype–phenotype correlation
C. Han, S. D. Dib-Hajj, Z. Lin, Y. Li, E. M. Eastman, L. Tyrrell, X. Cao, Y. Yang and S. G. Waxman
1711

The pattern and diagnostic criteria of sensory neuronopathy: a case–control study
J.-P. Camdessanché, G. Jousserand, K. Ferraud, C. Vial, P. Petiot, Jérôme Honnorat and J.-C. Antoine
1723

PMP22 expression in dermal nerve myelin from patients with CMT1A

I. Katona, X. Wu, S. M. E. Feely, S. Sottile, C. E. Siskind, L. J. Miller, M. E. Shy and J. Li

1734

Phenotypic spectrum of dynamin 2 mutations in Charcot-Marie-Tooth neuropathy

K. G. Claeys, S. Züchner, M. Kennerson, J. Berciano, A. Garcia, K. Verhoeven, E. Storey, J. R. Merory, H. M. E. Bienfait, M. Lammens, E. Nelis, J. Baets, E. De Vriendt, Z. N. Berneman, I. De Veuster, J. M. Vance, G. Nicholson, V. Timmerman and P. De Jonghe

1741

Exhaustive analysis of BH4 and dopamine biosynthesis genes in patients with Dopa-responsive dystonia

F. Clot, D. Grabli, C. Cazeneuve, E. Roze, P. Castelnau, B. Chabrol, P. Landrieu, K. Nguyen, G. Ponsot, M. Abada, D. Doummar, P. Damier, R. Gil, S. Thobois, A. J. Ward, M. Hutchinson, A. Toutain, F. Picard, A. Camuzat, E. Fedirko, C. Sân, D. Bouteiller, E. LeGuern, A. Durr, M. Vidailhet, A. Brice and the French Dystonia Network

1753

Dynamic changes of striatal and extrastriatal abnormalities in glutaric aciduria type I

I. Harting, E. Neumaier-Probst, A. Seitz, E. M. Maier, B. Assmann, I. Baric, M. Troncoso, C. Mühlhausen, J. Zschocke, N. P. S. Boy, G. F. Hoffmann, S. F. Garbade and S. Kölker

1764

Glucocerebrosidase mutations in clinical and pathologically proven Parkinson's disease

J. Neumann, J. Bras, E. Deas, S. S. O'Sullivan, L. Parkkinen, R. H. Lachmann, A. Li, J. Holton, R. Guerreiro, R. Paudel, B. Segarane, A. Singleton, A. Lees, J. Hardy, H. Houlden, T. Revesz and N. W. Wood

1783

Gene expression profiling of substantia nigra dopamine neurons: further insights into Parkinson's disease pathology

F. Simunovic, M. Yi, Y. Wang, L. Macey, L. T. Brown, A. M. Krichevsky, S. L. Andersen, R. M. Stephens, F. M. Benes and K. C. Sonntag

1795

Depletion of medullary serotonergic neurons in patients with multiple system atrophy who succumbed to sudden death

M. Tada, A. Kakita, Y. Toyoshima, O. Onodera, T. Ozawa, T. Morita, M. Nishizawa and H. Takahashi

1810

Reduced O-GlcNAcylation links lower brain glucose metabolism and tau pathology in Alzheimer's disease

F. Liu, J. Shi, H. Tanimukai, J. Gu, J. Gu, I. Grundke-Iqbal, K. Iqbal and C.-X. Gong

1820

The neural correlates of verbal short-term memory in Alzheimer's disease: an fMRI study

F. Peters, F. Collette, C. Degueldre, V. Sterpenich, S. Majerus and E. Salmon

1833

Anterior thalamic lesions stop synaptic plasticity in retrosplenial cortex slices: expanding the pathology of diencephalic amnesia

D. L. F. Garden, P. V. Massey, D. A. Caruana, B. Johnson, E. C. Warburton, J. P. Aggleton and Z. I. Bashir

1847

Increased binding to 5-HT_{1A} and 5-HT_{2A} receptors is associated with large vessel infarction and relative preservation of cognition

M. S. J. Elliott, C. G. Ballard, R. N. Kalaria, R. Perry, T. Hortobágyi and P. T. Francis

1858

Cortical spreading ischaemia is a novel process involved in ischaemic damage in patients with aneurysmal subarachnoid haemorrhage

J. P. Dreier, S. Major, A. Manning, J. Woitzik, C. Drenckhahn, J. Steinbrink, C. Tolia, A. I. Oliveira-Ferreira, M. Fabricius, J. A. Hartings, P. Vajkoczy, M. Lauritzen, U. Dirnagl, G. Bohner, A. J. Strong, for the COSBID study group

1866

Reduced medial temporal lobe functionality in stroke patients: a functional magnetic resonance imaging study

L. Snaphaan, M. Rijpkema, I. van Uden, G. Fernández and F.-E. de Leeuw

1882

Implicit representation and explicit detection of features in patients with hemispatial neglect

T. M. Van Vleet and L. C. Robertson

1889

Changes in cortical grey matter density associated with long-standing retinal visual field defects

C. C. Boucard, A. T. Hernowo, R. P. Maguire, N. M. Jansonius, J. B. T. M. Roerdink, J. M. M. Hooymans and F. W. Cornelissen

1898

About the role of visual field defects in pure alexia

T. Pflugshaupt, K. Gutbrod, P. Wurtz, R. von Wartburg, T. Nyffeler, B. de Haan, H.-O. Karnath and R. M. Mueri

1907

Neural processing of spoken words in specific language impairment and dyslexia

P. Helenius, T. Parviainen, R. Paetau and R. Salmelin

1918

Enhanced activation of the left inferior frontal gyrus in deaf and dyslexic adults during rhyming

M. MacSweeney, M. J. Brammer, D. Waters and U. Goswami

1928

Neural correlates of pragmatic language comprehension in autism spectrum disorders

C. M. J. Y. Tesink, J. K. Buitelaar, K. M. Petersson, R. J. van der Gaag, C. C. Kan, I. Tendolkar and P. Hagoort

1941

Hemispheric competence for auditory spatial representation

L. Spierer, A. Bellmann-Thiran, P. Maeder, M. M. Murray and S. Clarke
1953

Evaluation of evoked potentials to dyadic tones after cochlear implantation

P. Sandmann, T. Eichele, M. Buechler, S. Debener, L. Jäncke, N. Dillier, K. Hugdahl and M. Meyer
1967

Encoding of human action in Broca's area

P. Fazio, A. Cantagallo, L. Craighero, A. D'Ausilio, A. C. Roy, T. Pozzo, F. Calzolari, E. Granieri and L. Fadiga
1980
