Directions to authors on the preparation of papers

PAPERS must be typewritten on one side of the paper only and double-spaced, and submitted in triplicate with three sets of figures. In addition to the full title of the paper, authors should supply a ‘running title’ which will appear at the heads of the pages. Brain does not publish preliminary reports of work in progress, or brief accounts of single cases. More detailed studies on single cases, if appropriate, are acceptable. Papers reporting experiments on patients or healthy volunteers must record the fact that the subjects’ informed consent was obtained (Declaration of Helsinki: Brit. Med. J. 1964, 2, 177). Review articles, if authoritative and topical, will also be considered. The typescript should be carefully and finally revised before submission to the Editor, so that if the paper is accepted it is ready for the printer. Clarity of style and brevity of expression are essential. Before submitting a paper it is always valuable to obtain the comments of colleagues who are unfamiliar with the work. We refer intending authors to the Journal of Physiology’s ‘Suggestions to Authors’, free of charge from Cambridge University Press, Shaftesbury Road, Cambridge CB2 2BS. SI units should be employed. If prepared on a word processor, papers printed with a low resolution dot-matrix type will not be considered.

The paper should be accompanied by a declaration in the following terms: ‘The work reported in the attached paper entitled ... has not been, and is not intended to be, published anywhere except in Brain and signed by all the authors.

BIBLIOGRAPHIC REFERENCES should be limited to essential literature; they should be listed at the end of the paper in alphabetical order, and not numbered. In the case of a Journal: author's name, date of publication in brackets, volume number, first and last page numbers of the paper quoted, both in Arabic numerals. In the case of a book: author's name, date of publication in brackets, title of book underlined for italics, place of publication, publisher's name, chapter and page numbers in Arabic numerals. Works by the same author should be given in chronological order, and if there are more than one in a year, they are marked a, b, c, etc. For multiple publications by the same author with two or more associates, chronological order should be adopted, again with the designation a, b or c if there is more than one publication in a year. In the text numbered references are not used, but the author’s name is followed by the appropriate year in brackets. The punctuation should follow the style adopted by the journal (see current issue).

ILLUSTRATIONS should, where possible, be glossy prints of line drawings, numbered and with the author's name on the back. Drawings and other illustrations should not exceed twice the size of the reproduction and thus lines must be thick enough to show up after reduction; neither should they be too small, as professional lettering will be substituted. Legends should be on separate sheets and numbered. Desired positions of tables and figures should be marked by instructions enclosed within lines and brackets, e.g.

(Table 3 near here) or (Fig. 4 near here).

Half-tone photographs must be kept to a minimum. Excellent photographs with clear contrast are essential, especially for the reproduction of electron micrographs. Authors may be asked to contribute to their cost. There should be a bar on all micrographs giving magnification, e.g. 1 μm.

Authors are asked not to reprint their papers, or to authorize others to do so, without first consulting the Oxford University Press (Academic Division), Walton Street, Oxford OX2 6DP.

Fifty free offprints are sent to the authors, who may order more direct from Oxford University Press, Walton Street, Oxford OX2 6DP when they get their proofs.

Reduced rates are available for personal subscribers. For further details please contact the Journals Subscriptions Department. Prices include postage.

Orders and inquiries for back numbers: Wm Dawson & Sons Limited, Cannon House, Folkestone, Kent. Orders and inquiries for out of print back numbers: Swets & Zeitlinger B.V., Heereweg 347-b, PO Box 810, 2160 SZ Lisse, Holland.

Journals Advertisement Manager and inquiries about offprints and copyright: Journals Production, Oxford University Press, Walton Street, Oxford OX2 6DP.
