BRAIN
A JOURNAL OF NEUROLOGY
Volume 136 Part 2 February 2013

Editorial
A. Compston

359

From The Archives
A. Compston

362

Scientific Commentaries
Complication begets clarification in classification
368

J. Barkovich

Oligodendroglioma: new players in amyotrophic lateral sclerosis
369

A. C. Ludwig

Sex, drugs and Parkinson’s disease
370

P. Uehleke and J. F. Perretti

Review Articles
Parkinson’s disease, insulin resistance and novel agents of neuroprotection
374

A. J. Ascasibar-Olmos, P. Limousin, A. Lees and T. Foltynie

Original Articles
Cher72 repeat expansions are a rare genetic cause of parkinsonism
385

E. L. Magne, T. I. A. Bygren, F. Strander, N. M. Engelsen, D. W. Dickson

Glucocerebrosidase mutations influence the natural history of Parkinson’s disease in a community-based incident cohort
392

Neural response to visual sexual cues in dopamine treatment-linked hypersexuality in Parkinson’s disease
400

A progressive dopaminergic phenotype associated with neurotrophic conversion of glial cells in BAC-transgenic rats
412

Sporadic atrophy in patients with Huntington’s disease: impact of diminished astrocytes and vascularization on graft viability
423

Temporal expectation in focal hand dystonia
444

L. Arvastova, D. Martinotti, L. Martino, E. Pelizzo, C. M. Vicario, M. Bove, G. Delaito and G. Abbruzzese

Corneopallidal tract degeneration associated with TDP-43 type C pathology and semantic dementia
448

Oligodendrocyte dysfunction in the pathogenesis of amyotrophic lateral sclerosis
455

T. Philips, A. Bentel-Antoine, A. Nienmeijer, W. Haeck, K. Stas, V. Geuens, N. Hermus, B. Kusters, L. van Den Bosch, T. Yan Damme, W. D. Richardson and W. Robberecht

Degeneration of serotonergic neurons in amyotrophic lateral sclerosis: a link to spasticity
463

K7del is a common TPM2 gene mutation associated with minimum myopathy and raised myofibre calcium sensitivity
474

Novel deletion of lysine 7 expands the clinical, histopathological and genetic spectrum of TPM2-related myopathies
508

A novel syndrome caused by the E410K amino acid substitution in the neuronal β-tubulin isotype 3 and TUBA1A
522

Overlapping cortical malformations and mutations in TUBA1A and TUBA1B
536

Loss of SOX10 function contributes to the phenotype of human Merlin-null schwannomas cells
549

Continued on inside back cover
Integrin control of the transforming growth factor-β pathway in glioblastoma

CHOP regulates the p53–MDM2 axis and is required for neuronal survival after seizures

The adult seizure and social outcomes of children with partial complex seizures
C. S. Camfield and P. R. Camfield 593

Words and objects at the tip of the left temporal lobe in primary progressive aphasia
M.-M. Mesulam, C. Wieneke, R. Hurley, A. Rademaker, C. K. Thompson, S. Weintraub and E. J. Rogalski 601

Damage to ventral and dorsal language pathways in acute aphasia

Phonological deficits in specific language impairment and developmental dyslexia: towards a multidimensional model
F. Ramus, C. R. Marshall, S. Rosen and H. K. van der Lely 630

Functional magnetic resonance imaging of chronic dysarthric speech after childhood brain injury: reliance on a left-hemispheric compensatory network
A. T. Morgan, R. Masterton, L. Pigdon, A. Connelly and F. J. Liégeois 646

Intracerebral haemorrhage profiles are changing: results from the Dijon population-based study
Y. Béjot, C. Cordonnier, J. Durier, C. Aboa-Eboulé, O. Rouaud and M. Giroud 658

Single nucleotide polymorphisms associated with sporadic brain arteriovenous malformations: where do we stand?

Book Review
A landmark publication in movement disorders
M. Halliet 682

Letters to the Editor
Multisystem fatal infantile disease caused by a novel homozygous EARS2 mutation

Alcohol, sleepwalking and violence: lack of reliable scientific evidence

Persistence of the treatment effect of idebenone in Leber’s hereditary optic neuropathy

Idebenone treatment in patients with OPA1-mutant dominant optic atrophy
Subscriptions
A subscription to Brain comprises 12 issues. Prices include postage by surface mail, or for subscribers in the USA and Canada by airfreight, or in India, Japan, Australia and New Zealand, by Air Speeded Post. Airmail rates are available on request. Brain Advance Access contains papers that have been finalised, but have not yet been included within an issue. Advance Access is updated weekly.

Annual Subscription Rate (Volume 136, 12 issues, 2013)

Institutional - Academic/Non profit only
Print edition and site-wide online access: £730/$1458/
Site-wide online access only: £535/$1069/
Print edition only: £669/$1337/
Institutional - Corporate
Print edition and site-wide online access: £912/$1823/
Site-wide online access only: £669/$1337/
Print edition only: £669/$1671/
Personal
Print and online: £280/$561/
Print edition only: £250/$526/
Please note: US$ rate applies to US & Canada, Euros applies to Europe, UK£ applies to UK and Rest of World.

There may be other subscription rates available, for a complete listing please visit www.brain.oxfordjournals.org/subscriptions.

Full prepayment, in the correct currency, is required for all orders. Orders are regarded as firm and payments are not refundable. Subscriptions are accepted and entered on a complete volume basis. Claims cannot be considered more than FOUR months after publication or date of order, whichever is later. All subscriptions in Canada are subject to GST.

Subscriptions in the EU may be subject to European VAT. If registered, please supply details to avoid unnecessary charges. For subscriptions that include online versions, a proportion of the subscription price may be subject to UK VAT. Personal rate subscriptions are only available if payment is made by personal cheque or credit card and delivery is to a private address.

The current year and two previous years’ issues are available from Oxford University Press. Previous volumes can be obtained from the Periodicals Service Company, 11 Main Street, Germantown, NY 12526, USA. Email: psc@periodicals.com. Tel: +1 (518) 537 4700. Fax: +1 (518) 537 5899.

For further information, please contact: Journals Customer Service Department, Oxford University Press, Great Clarendon Street, Oxford OX2 6DP, UK. Email: jns.cust.serv@oup.com. Tel (and answerphone outside normal working hours): +44 (0)1865 353907. Fax: +44 (0)1865 353485.

In the US, please contact: Journals Customer Service Department, Oxford University Press, 2001 Evans Road, Cary, NC 27513, USA. Email: jnorders@oup.com. Tel (and answerphone outside normal working hours): 800 852 7323 (toll-free in USA/Canada). Fax: 919 677 1714.

In Japan, please contact: Journals Customer Services, Oxford University Press, 4-5-10-8F, Shiba, Minato-ku, Tokyo, 108-8386 Japan. Email: custserv.jp@oup.com. Tel: (03) 5444 5858. Fax: (03) 3454 2929.

Brain is published monthly (ISSN 0006-8950) by Oxford University Press, Oxford, UK. Annual subscription price is £730/$1458/€1093. Brain is distributed by Mercury International, 365 Blair Road, Avenel, NJ 07001, USA. Periodicals postage paid at Rahway, NJ and at additional entry points. US Postmaster: send address changes to Brain, c/o Mercury International, 365 Blair Road, Avenel, NJ 07001, USA.

Oxford Journals Environmental and Ethical Policies
Oxford Journals is committed to working with the global community to bring the highest quality research to the widest possible audience. Oxford Journals will protect the environment by implementing environmentally friendly policies and practices wherever possible. Please see http://www.oxfordjournals.org/ethicalpolicies.html for further information on Oxford Journals’ environmental and ethical policies.

Supplements, reprints and corporate sales
For requests from industry and companies regarding supplements, bulk article reprints, sponsored subscriptions, translation opportunities for previously published material, and corporate online opportunities, please email special.sales@oup.com, fax +44 (0)1865 355744 or visit www.oxfordjournals.org/jnls/sales.

DOIs
For information about DOIs and how to resolve them, please visit http://dx.doi.org/

Permissions
For information on how to request permissions to reproduce articles/ information from this journal, please visit www.oxfordjournals.org/jnls/permissions.

Advertising
