CORRIGENDUM

The author would like to apologise for an error on p. 1277. The sentence should read ‘It was subsequently confirmed that both propriospinal afferents and supraspinal efferents to spinal locomotor centres could facilitate motor output in patients with complete spinal cord injury (for review see Dietz and Fouad, 2014).’

Figure 1 was modified from Rossignol and Frigon (2011), with permission from Annu Rev Neurosci.
