Convergence of pathology in dementia with Lewy bodies and Alzheimer’s disease: a role for the novel interaction of alpha-synuclein and presenin 1 in disease

Critical brain regions for tool-related and imitation actions: a componential analysis
L. J. Badcock, A. D. Shapiro and H. B. Colesett 1971

Targeting impulsivity in Parkinson’s disease using stimulants

Pharmacological stimulation of sigma-1 receptors has neurorestorative effects in experimental parkinsonism

Directional deep brain stimulation: an intraoperative double-blind pilot study

Anatomical predictors of aphasia recovery: a tractography study of bilateral perisylvian language networks
S. J. Forstel, M. Theibaude de Schotten, F. Dell’Arca, L. Köra, D. G. M. Murphy, S. C. R. Williams and M. Caeber 2027

Sequestration of multiple RNA recognition motif-containing proteins by C9orf72 repeat expansions

Within-patient correspondence of amyloid-β and intrinsic network connectivity in Alzheimer’s disease

Beyond the temporal pole limbic memory circuit in the semantic variant of primary progressive aphasia

Feeling unreal: a functional imaging study in patients with Kleine-Levin syndrome

Efficacy of preferential theta-burst stimulation in refractory depression: a randomized sham-controlled double-blind pilot study
