Early detection of intentional harm in adults and elderly rats after stroke.

Disrupted sensorimotor and social-cognitive networks underlie symptoms in childhood-onset schizophrenia.
R. A. Berman, J. Gati, H. M. Mcdade, et al.

Letter to the Editor
1 Mitochondrial DNA copy number differentiates the Lib er's hereditary optic neuropathy affected individuals from the unaffected mutation carriers.
A. Bianco, I. Martinez-Romero, L. Biscoglia, et al.

Reply: Mitochondrial DNA copy number differentiates the Lib er's hereditary optic neuropathy affected individuals from the unaffected mutation carriers.

Skin biopsies in the differential diagnosis of parkinsonism: are we ready for simplified protocols?

Reply: Skin biopsies in the differential diagnosis of parkinsonism are we ready for simplified protocols?

Curriculum
7 Corrigendum

Delayed intramuscular human neurotrophin-3 improves recovery in adult and elderly rats after stroke.

Disrupted sensorimotor and social-cognitive networks underlie symptoms in childhood-onset schizophrenia.
R. A. Berman, J. Gati, H. M. Mcdade, et al.
