CONTENTS

Functional Capacity of the Isolated Human Spinal Cord. Robert A. Kuhn 1

Lead in Relation to Disseminated Sclerosis. A. M. G. Campbell, G. Herdan, W. F. T. Tatlow and E. G. Whittle 52

The Lumbar Cerebrospinal Fluid Protein in Intracranial Meningiomas. W. Eugene Stern 72

Non-penetrating Injuries of the Median Nerve at the Wrist. David Kendall 84

The Human Pyramidal Tract. XVIII: An Analysis of Its Pathophysiological Status. A. M. Lassek 95

Survival in Disseminated Sclerosis: A Clinical Study of a Series of Cases First Seen Twenty Years Ago. R. S. Allison 103

Thresholds of Cortical Representation. E. G. T. Liddell and C. G. Phillips 125

Encephalitis and Encephalomyelitis in England and Wales During the Last Decade. J. G. Greenfield 141

Visual-Spatial Agnosia Associated with Lesions of the Right Cerebral Hemisphere. J. McFie, M. F. Piercy and O. L. Zangwill 167

Cortical Rhythms Not Seen in the Electroencephalogram. Denis Williams and Gerald Parsons-Smith 191

A Case of Auditory Agnosia. Margaret Reinhold 203

Sensory Changes in Procaine Nerve Block. D. C. Sinclair and J. R. Hinshaw 224

The Chemistry of Cerebral Cysts. J. N. Cumings 244

The Advance of Functional Recovery after Radial Nerve Lesions in Man. R. E. M. Bowden and D. A. Sholl 251

The Validity of the Concept of Multiplicity of Representation in the Motor Cortex under Conditions of Threshold Stimulation. E. Gellhorn 267

The Specificity of the Electromyographic Method for the Investigation of the Motor Cortex. E. Gellhorn and D. A. Johnson 275

Adult Toxoplasmosis in One Family. A. M. G. Campbell and F. Clifton 281

Late Infantile Metachromatic Leuko-Encephalopathy, with Primary Degeneration of the Interfascicular Oligodendroglia. W. Russell Brain and J. G. Greenfield 291

Myotonia Congenita, Dystrophia Myotonica and Paramyotonia: Reaffirmation of their Identity. Otto Maas and A. Spencer Paterson 318

The Effect of Head Posture on the Manometrics of the Cerebrospinal Fluid in Cervical Lesions: A New Diagnostic Test. Lawrence Kaplan and Foster Kennedy 337

The Origin, Course and Termination of the Prefronto-Pontine Tract in the Human Brain. Elisabeth Beck 368
CONTENTS

Electroencephalogram in Subacute Progressive Encephalitis. William Cobb and Denis Hill ........................................ 392

Basilar Impression of the Skull. J. E. A. O'Connell and J. W. Aldren Turner .................................................. 405

Blood Pyruvate Estimations in the Diagnosis and Treatment of Polyneuritis. C. L. Joiner, B. McArdle and R. H. S. Thompson ............................................................................................................. 431

Fits of Laughter (Sham Mirth) in Organic Cerebral Disease. J. Purdon Martin .................................................. 453

The Cerebral Basis of Consciousness. W. Russell Brain ......................................................................................... 465

A Comparison of the Sensory Dissociation Produced by Procaine and by Limb Compression. D. C. Sinclair and J. R. Hinshaw ...................................................................................................... 480

Symptomatic “Cataplexy” or Chalastic Fits in Cortical Lesion of the Frontal Lobe. Sven Ethelberg .................. 499

Further Studies on the Role of Proprioception in Cortically Induced Movements of the Foreleg in the Monkey. E. Gellhorn and D. A. Johnson ................................................................. 513

A Study of Retrograde Degeneration in the Oculomotor Nucleus of the Rhesus Monkey, with a Note on a Method of Recording Its Distribution. R. Warwick ................................................................. 532

Notices of Recent Publications ........................................ 121, 280, 427, 544
