CONTENTS

The Surgical Treatment of Colloid Cyst of the Third Ventricle. Wylie McKissock .................................................. 1

The Effects of B.A.L. in Hepatolenticular Degeneration. J N. Cumings .................................................. 10

Colloid Cysts of the Third Ventricle. Reginald Kelly .................................................. 23

Corticothalamic Connexions of Posterior Orbital Surface in Rhesus Monkey. Patrick D. Wall, Paul Glees, and John F. Fulton .................................................. 66

Nervous and Mental Disorders in Cushing's Syndrome. John D. Spillane .................................................. 72

Hyaline Bodies in the Optic Discs: Report of Ten Cases Exemplifying Importance in Neurological Diagnosis. John W. Chambers and Frank B. Walsh .................................................. 95

Progressive Dystrophy of the External Ocular Muscles (Ocular Myopathy). L. G. Kiloh and S. Nevin .................................................. 115

The Familial Incidence of Disseminated Sclerosis and Its Significance. R. T. C. Pratt, N. D. Compston and Douglas McAlpine .................................................. 191

An Experimental Study of the Hippocampal Connexions of the Cingulate Cortex in the Rabbit. W. R. Adey .................................................. 233

On the Interpretation of Experimental Studies of Cortical Motor Function: With Special Reference to the "Operational View" of Experimental Procedures. F. M. R. Walsh ................. 249

Types of Visual Perseveration: "Paliopsia" and "Illusory Visual Spread." Macdonald Critchley .................................................. 267

Thrombosis of the Basilar Artery and the Vascularization of the Brain Stem. A. Biemond .................................................. 300

Sensory Changes in Nerve Blocks Induced by Cooling. D C. Sinclair and J. R. Hinshaw .................................................. 318

Innsensitivity to Pain. Eric C. O. Jewesbury .................................................. 336

Further Studies of the Effects of Cortisone and ACTH on Neurological Disorders. G. Milton Shy and Donald McEachern .................................................. 354

A Case of Organized Visual Hallucinations in an Old Man with Cataract, and Their Relation to the Phenomena of the Phantom Limb. J. E. A. Bartlett .................................................. 363

Thalamic Activity in Stupor. Denis Williams and Gerald Parsons-Smith .................................................. 377

Some Clinical Aspects of Human Cortical Function. Margaret Reinhold .................................................. 399

The Physiological Effect of Variations in the Stimulus Frequency on the Motor Cortex of the Monkey. J. Hyde and E. Gellhorn .................................................. 432

The Restoration of Motor Function Following Hemiplegia in Man. Thomas E. Twitchell .................................................. 443

The Segmental Innervation of the Muscles of the Hand. R. J. Last .................................................. 481

A Classification of Peripheral Nerve Injuries Producing Loss of Function. Sydney Sunderland .................................................. 491

First International Meeting of Neuropathologists .................................................. 524

Notices of Recent Publications ........................................................................................................ 109, 248, 374, 517
